G2.11 CO-OPERATION WITH OTHER CONTRACTORS AND THE S.O.

G2.11.1 Interfacing with Other Contractors

- (a) When other contractors need to work in the Contractor's work areas, including the common areas of the Site, the Contractor shall facilitate such work in a timely manner to avoid delay to the project, and shall co-ordinate closely with the S.O. and the other contractors in this regard. No claim for additional payment or extension of time will be entertained by the Board and the Contractor's rates are deemed to have taken this into account.
- (b) In the event that other contractors carry out work in the Contractor's work areas, such other contractors will have to adhere to the Contractor's Site management procedures, including safe working procedures. The Contractor shall ensure that all such other contractors are trained in and adhere to his procedures.

G2.11.2 Assisting the S.O.

- (a) At the request of the S.O. the Contractor shall provide such labour and tools; and other material as are reasonably required to assist the S.O. in measuring, supervising, checking, testing, examination or setting out the Contractor's work in any way whatsoever at any time within the working hours specified.

G2.11.3 Attendance

- (a) The Contractor must act conjointly with the Suppliers or Specialist sub-contractors engaged in executing elements of the Works be responsible for ascertaining from them their requirements as regards the order of the execution of the works, so that they may be built in correctly in the first place without alteration afterwards, failing which, the Contractor shall have to bear all extra cost for cutting away any work already executed.
- (b) The Contractor shall at all times attend upon the Suppliers or Specialist sub-contractors and make good on any items which may be disturbed or damaged during the installation of other trades and leave the same in a condition acceptable to the S.O..
